

//////////////////////////////////// ATC SAFETY //////////////////////////////////////

LOADING AND ACCESSORIES

WARNING

* *To prevent an accident, use extreme care when adding and riding with accessories and cargo. Addition of accessories and cargo can reduce the Big Red's stability, performance, and safe operating speed.*

The combined weight of the rider, cargo and all accessories must not exceed **150 kg (330 lbs)** which is the vehicle capacity load.

1. The cargo must not exceed these maximum load limits:

Front carrier	10 kg (22 lbs)
Rear carrier	45 kg (100 lbs)
Trailer hitch drawbar pull	300 kg (700 lbs)
Weight on hitch point	14 kg (30 lbs)
2. Load cargo on the rear carrier as far forward as possible. Do not allow cargo to extend beyond the end of the rear carrier.

3. When towing a trailer, care should be taken to maintain balance and stability. Place cargo in the trailer so that it will not cause the front wheel to lift off the ground during travel.
4. Do not obstruct the headlight beam with cargo.
5. Do not ride with a passenger on the rear carrier. This ATC was not designed to carry passengers.
