

HELMET HOLDER

The helmet holder is located below the seat. Remove the seat (see page 35). Route either end of the helmet holder wire (1) through the helmet's D-ring (2).

Hook the loops of the wire onto the helmet holder (3) and lower the seat to lock.

The helmet holder wire is furnished in the tool kit.

- (1) Helmet holder wire
- (2) D-ring
- (3) Helmet holder

▲WARNING

***The helmet holder is designed for helmet security while parked. Do not ride with a helmet attached to the holder; the helmet may interfere with safe operation and result in loss of control.**
