

Important Message to Parents

In certain states, it may be legal for a young person to operate this scooter. If it is permissible in your area and you plan to allow a young person to operate this scooter, we urge you to read this message. Your child's safety is very important to Honda.

Riding a scooter can be fun. But, as with riding a bicycle, bad judgment can result in injury, and we don't want that to happen! As a parent, you can help prevent accidents by making good decisions about if, when, and how your youngster rides this scooter.

Riding Readiness

The first decision you'll need to make is whether your youngster is ready to ride. Riding readiness varies widely from one person to another, and age and size are not the only factors.

PHYSICAL ABILITY is an important consideration. For example, riders must be big enough to hold the scooter up, get on, and comfortably sit on the seat with both feet touching the ground. They should also be able to easily reach and work the brakes, throttle, and all other controls.
