

### Theft-Prevention Tips

- Park your scooter in a locked garage whenever possible. If a garage isn't available, park in a concealed area or in a well-lit area with enough pedestrian traffic to discourage a thief.
  - Always take the ignition key with you.
  - Always use the steering lock (page 61 ), even if you're parking for just a minute or two. A thief can easily push an unlocked scooter to a waiting truck.
  - In addition to the steering lock, use a good quality anti-theft device made specifically to lock a scooter to a secure object.
- If you decide to use an anti-theft device, select one of good quality and be sure to follow the manufacturer's instructions.
  - Keep your owner's manual, current registration, and insurance information with your scooter. This will make it easier for the authorities to find you if your scooter is stolen and recovered.
