

2. Check the security of all fork mounting bolts (1) and handle bar mounting nuts (2). If any front suspension components appear worn or damaged, see your Honda dealer for further inspection.

## Rear Suspension Inspection

- (1) swingarm bushing
- (2) shock absorber attachment points

RIGHT SIDE

- (1) swingarm bushing
- (2) shock absorber attachment points

1. Place the motorcycle on a maintenance stand. Push hard against the side of the rear wheel and feel for any freeplay which indicates worn swingarm bushings (1).
