

4. Refill each fork leg with **4.9 oz. (145 cc)** of premium quality automatic transmission fluid (ATF).
5. Install filler plugs, and remove block from under motorcycle.

② Oil filler plugs

Rear Suspension Inspection

Check the rear suspension periodically by careful visual examination. Note the following items.

1. Rear fork bushing—this can be checked by pushing hard against the side of the rear wheel while the motorcycle is on a support block and feeling for looseness of the fork bushings.
2. Check side stand spring for damage.
3. Check all suspension component attachment points for security of their respective fasteners.
4. Check for oil leaks in rear damper units.

NOTE :

If any of the above components appear damaged or worn, consult your Honda dealer for further inspection.
