

## TUBELESS TIRES

This motorcycle is equipped with tubeless tires, valves, and wheel rims. Use only tires marked "TUBELESS" and tubeless valves on rims marked "TUBELESS TIRE APPLICABLE."

Proper air pressure will provide maximum stability, riding comfort and tire life.

Check tire pressure frequently and adjust if necessary.

### NOTE:

- \* Check tire pressure when the tires are "cold," before you ride.
- \* Tubeless tires have some degree of self-sealing ability if they are punctured, and leakage is often very slow. Inspect very closely for punctures, especially if the tire is not fully inflated.

Dry weight	kg (lbs)	138 (304)
Curb weight (wet)	kg (lbs)	155 (342)
Vehicle capacity load	kg (lbs)	170 (375)

		Front	Rear
Tire size		100/90-16 54S	110/80-18 58S
