

GLOVE BOX

Opening

To open the glove box (1), insert the ignition key (2) and turn it clockwise.

Closing

To close the glove box, insert the ignition key and turn it clockwise while pressing forward; turn the key back to lock the glove box. Remove the key, making sure the cover is securely closed.

MAXIMUM WEIGHT LIMIT:

1 kg (2 lbs)

(1) Glove box

(2) Ignition key

▲ WARNING

- * **Never exceed the maximum weight limit; handling and stability may be severely affected.**

NOTE:

- * Do not direct water under pressure against the glove box as water will be forced into the glove box compartment.
