

Headlight Switch

The headlight switch (1) has two positions: “H” and “OFF” marked by a red dot.

NOTE: The headlight and taillight can be operated whenever the engine is running.

H: Headlight and taillight on.

OFF (red dot): Headlight and taillight off.

Headlight Dimmer Switch

Turn the headlight dimmer switch (2) to “LO” for low beam, and “HI” for high beam.

Horn Button

When this button (3) is pressed the horn sounds.
