(3) Adjusting nuts

### Lubrication and Cleaning

Lubricate every 30 days of riding or sooner if chain appears dry. The O-rings in this chain can be damaged by steam cleaning, high pressure washers and certain solvents. Clean the side surfaces of the chain with a dry cloth. Do not brush the rubber O-rings. Brushing will damage them. Wipe dry and lubricate only with SAE 80 or 90 gear oil. Commercial chain lubricants may contain solvents which could damage the rubber O-rings.

#### Chain Replacement:

DID428 V2/98 or RK 428 HMOZ/98
