

PROTECTIVE APPAREL

1. Most motorcycle accident fatalities are due to head injuries: **ALWAYS** wear a helmet. You should also wear a face shield or goggles; boots gloves, and protective clothing. A passenger needs the same protection.
2. The exhaust system becomes very hot during operation, and it remains hot after operation. Never touch any part of the hot exhaust system. Wear clothing that fully covers your legs.
3. Do not wear loose clothing which could catch on the control levers, footrests, or wheels.

MODIFICATIONS

WARNING: Modification of the motorcycle, or removal of original equipment may render the vehicle unsafe or illegal. Obey all national and local equipment regulations.

LOADING AND ACCESSORIES

WARNING: To prevent an accident, use extreme care when adding and riding with accessories and luggage. The addition of accessories and luggage can reduce a motorcycle's stability, performance and safe operating speed. Remember these performances may be reduced by installation of non-Honda accessories, improper loading, poor road or weather conditions, etc.

These general guidelines may help you decide whether or how to equip your motorcycle, and how to load it safely.
