

## CAUTION:

- \* *Battery fluid is highly corrosive and can damage metal or painted surfaces. When checking battery fluid level, or adding distilled water, make sure the breather tube is connected to the battery breather outlet.*

## ⚠ WARNING

- \* *The battery gives off explosive gases; keep sparks, flames and cigarettes away. Provide adequate ventilation when charging or using the battery in an enclosed space.*
- \* *The battery contains sulfuric acid (electrolyte). Contact with skin or eyes may cause severe burns. Wear protective clothing and a face shield.*
  - *If electrolyte gets on your skin, flush with water.*
  - *If electrolyte gets in your eyes, flush with water for at least 15 minutes and call a physician immediately.*
- \* *Electrolyte is poisonous.*
  - *If swallowed, drink large quantities of water or milk and follow with milk of magnesia or vegetable oil and call a physician.*

- \* **KEEP OUT OF REACH OF CHILDREN.**

## CAUTION:

- \* *The battery breather tube must be routed as shown on the label. Do not bend or twist the breather tube. A bent or kinked breather tube may pressurize the battery and damage its case.*
