

Parking

- The rear fender has a storage compartment to store a U-shaped lock under the seat. After storing, use the rubber band (1) to securely fasten the lock. Some U-shaped locks may not be stored in the compartment due to their size or design.

- Keep your owner's manual, current registration, and insurance information with your motorcycle. This will make it easier for the authorities to find you if your motorcycle is stolen and recovered.

UNDER REAR SEAT

(1) rubber band
