## Headlight Dimmer Switch:

This switch allows you to switch between Low Beam and High Beam. It is a legal requirement that you ride with your Low Beam on when other traffic is approaching.

To change between High and Low Beam, simply push the corresponding side of the switch. The switch is marked "HI" and "LO".

For High Beam - Press the "HI" side.  
For Low Beam - Press the "LO" side.

### NOTE:

The Blue High Beam Indicator, below the Digital Display will illuminate when the "HI" side of the switch is pressed.
