## Changing the mileage unit:

- **1** After clock setting, the mileage unit start flashing.
- 2 Press B button to select either km or mile.
- 3 Press and hold A and B buttons until the display stops flashing. The mileage unit is set.
  - The setting can also be set by turning the ignition switch off.
  - ► The display will stop flashing automatically and the setting will be cancelled if the button is not pressed for about 30 seconds.
