

AT MODE: In this mode the gears are shifted automatically according to your riding conditions.

And also using the shift up switch (+) or shift down switch (-), you can temporarily shift up or down in AT MODE by using the shift switch. These switches are convenient when you want to temporarily down-shift in front of a curve, etc. (P68)

You can choose between two modes within AT MODE: D mode and S mode.

D mode (AT): This is the standard mode when AT MODE is selected. Select D mode for regular operation and efficient fuel economy.

S mode (AT): Select this mode while riding in AT MODE when you need more power, such as when overtaking, climbing hills, or pulling away.

S mode has three levels of adjustment.

MT MODE: MT MODE (6-speed manual operation) You can choose between 6 gears in this mode.
