▌To Set Cruise Control

❶ Make sure the travelling speed and operating gear are conformed to the requirements of the system.
Any speed other than the available range will not be memorised.

❷ Press the ⏱ cruise control main switch. (The ⏱ cruise control main indicator will come on.)

❸ Accelerate to the desired speed.

❹ Push the RES / + SET / - cruise control lever to SET / - side. (The cruise control SET indicator will come on.) Your current travelling speed is memorised.
