

Driving Guidelines

The ROHVA (Recreational Off-Highway Vehicle Association) also offers the hands-on ROV Basic Driver Course (RBDC). Information on and registration for the RBDC is available at www.ROHVA.org.

Off-highway Use Only

Your Honda SXS was designed for use on a wide variety of terrain and situations. However, it should not be driven on any public road, paved or unpaved, because it is not equipped to legally or safely drive on such roads.

Remember to obey all local off-road regulations, obtain permission before driving on someone else's private property, and respect all "no trespassing" signs.

Control Speed

Driving at excessive speed for the terrain or other conditions increases the chance of a crash or overturn. Always reduce speed when driving on hilly terrain, or when carrying cargo.

Use Extra Care on Unfamiliar Terrain

When driving in a new area, keep your speed low and check the terrain ahead for possible problems, such as large rocks, bumps, holes, or drop-offs. Don't drive fast on unfamiliar terrain or when visibility is limited. If you drive in an area with other vehicles, be sure to keep a safe distance to avoid a collision.

Do Not Perform Stunts

Keep all four wheels on the ground at all times. Showing off or attempting to perform stunts could lead to a crash or overturn in which the driver, a passenger, or others could be seriously hurt or killed.
