

Seat

Your Honda SXS is equipped with a bench seat that is designed to carry one driver and one passenger only.

The center of the bench seat is not intended as a seat and is, therefore, not equipped with a seat belt. Do not allow someone to ride there.

WARNING

Do not sit on the center of the bench seat.

The center is not equipped with a seat belt.

Not wearing a seat belt can result in serious injury or death.

Do not drive with any cargo on the center of the seat. Cargo on the center of the bench seat can interfere with the driver's ability to control the vehicle and can be thrown around and cause injury during an overturn or a crash.
