Is Your ATV Ready to Ride?

Fuel Check the level and add fuel (page 125) if

needed. Also make sure the fuel fill cap is

securely fastened. Check for leaks.

Use a gauge to check the air pressure. Adjust Tires

if needed. Also look for signs of damage or

excessive wear (page 174).

Check for damage (pages 182). Drivetrain Boots

Check for damage or looseness (pages 181). Guards

Nuts & Bolts Check the wheels to see that the axle nuts are

> tightened. Use a wrench to make sure all accessible nuts, bolts, and fasteners are tight.

System

Underbody & Exhaust Check for, and remove, any dirt, vegetation or other debris that could be a fire hazard or interfere with the proper operation of the

vehicle.

Air Cleaner Housing

Drain Tube

Check for deposits in the drain tube. If necessary, clean the tube (page 153) and

check the air cleaner housing.

Leaks, Loose Parts Walk around your ATV and look for anything

that appears unusual, such as a leak or loose

cable.
