

Periodic Checks

You should also perform other periodic maintenance checks at least once a month regardless of how often you ride, or more often if you ride frequently.

Also, check the odometer reading against the Maintenance Schedule and perform all maintenance that is due. ➤ P. 45

Tires and wheels	Check the air pressure (➤ P. 56), examine tread for wear and damage (➤ P. 56), and check the wheels for damage.
Fluid levels	Check the engine oil level (➤ P. 66), engine coolant level (➤ P. 70), and brake fluid level (➤ P. 72).
Lights	Check that the headlights, brake light, taillight, turn signals and license plate light are working properly.
Controls	Check the freeplay of the rear brake lever (➤ P. 73), throttle grip (➤ P. 78) and rear brake lock (➤ P. 29) operate properly.
Fuses	Check that you have a full supply of spare fuses.
Nuts & bolts	Check the major nuts and bolts, and tighten as needed.
