

SPARK PLUG

Refer to the Safety Precautions on page 56 .

Recommended plugs:

Standard:

CR8EH-9 (NGK) or
U24FER9 (DENSO)

For cold climate: (Below 5°C, 41°F)

CR7EH-9 (NGK) or
U22FER9 (DENSO)

For extended high speed riding:

CR9EH-9 (NGK) or
U27FER9 (DENSO)

(1) Spark plug cap

For most riding conditions this spark plug heat range number is satisfactory. However, if the motorcycle is going to be operated for extended periods at high speeds or near maximum power in hot climates, the spark plug should be changed to a colder heat range (a higher number).

NOTICE

Never use a spark plug with an improper heat range. Severe engine damage could result.

1. Clean any dirt from around the spark plug base.
Disconnect the spark plug cap (1) from the spark plug.
2. Remove the spark plug using a spark plug wrench furnished in the tool kit.
