

Periodic Checks

You should also perform other periodic maintenance checks at least once a month regardless of how often you ride, or more often if you ride frequently.

Also, check the odometer reading against the Maintenance Schedule and perform all maintenance that is due. ➤ P. 33

Tires and wheels	Check the air pressure (➤ P. 46), examine tread for wear and damage (➤ P. 46), and check the rims and spokes for damage.
Fluid levels	Check the engine oil level (➤ P. 57), and brake fluid level (➤ P. 64).
Lights	Check that the headlight, brake light, taillight and turn signals are working properly.
Controls	Check the freeplay of the clutch lever (➤ P. 74) and throttle grip (➤ P. 77).
Drive chain	Check the slack (➤ P. 68), adjust the slack (➤ P. 69), and lubricate (➤ P. 45) as needed.
Fuses	Check that you have a full supply of spare fuses.
Nuts & bolts	Check the major nuts and bolts, and tighten as needed.
